DUST AND RAIN .- There was a slight fall of rain yesterday, which laid the dust in the streets, much to the joy of those who have had to encounter its blinding clouds. Considerable rain is yet wanted to fill the cisterns, which are generally empty.

FIREMAN'S FAIR. - The ladies of Sumfer intend giving a fair about the 31 of May for the benefit of the fire department of that town, which has just been thoroughly organized, and which has purchased a new engine. The fair promises to be quite a success.

THE CHESTER Hog. -A fine specimen of this breed of hogs passed through the city yesterday for Mr. William Knox, of Selma, Ala. The porker in question was weighty and of good size. Quite a number of this breed have passed through our city of late, indicating that some attention is being given to this branch of stock-raising.

THE STATE LAND COOMISSIONES. - Mr. . C. P. Leslie, recently appointed Land Commissioner for the State of South Carolina, in pursuance of law, filed his bond yesterday, qualified and entered upon the discharge of the duties of his office. The office will be opened forthwith at Columbia S. C. All official communications relative to the sale or purchase of lands may be addressed to C. P. Leslie, Land Commissioner, Columbia, S. C.

Rosin .- It was reported a few days since that a sale of rosin had been made in this city at \$9. " he highest price since the war." This is a mistake, as rosin has been sold in th's market at \$12 per barrel of two hundred and eighty pounds. Charleston is as good a market for naval stores as any in the country, and as good prices can be had as at any other point. Indeed, low grades of rosin have, within the last four months, been shipped from Wilmington to Charleston for sale.

FOUR PERSONS BURNED TO DEATH .- A shocking accident took place in St. Paul's Parish, near New Road Station, on the Savannah and Charleston Railroad, on the night of the 14th instant, by which a colored man, his wife, his wife's sister, and a baby fourteen month; old, met a herrible death. Nothing was known to be wrong until the morning of the 15th, when some persons who lived in the neighborhood were passing by and found that the house of the deceased had been burned. Upon examining the rains they found the remains of the whole family so charred and disfigured as to be unrecognizable. It is supposed that the throughout the State, there is little doubt that | fire broke out in the night, and that the smoke suffocated the unfortunate people while they were sleeping. THIS ASSOCIATION WAS URGANIZED ON THE 22d of June last, on'y nine months ago, and has already secured an annual revenue from premiums on existing policies of nearly \$500,000 (Five Hundred Thousand Dollars). Its new business for the month of December was \$72,393 33, insuring the

amount of \$1,157,000. Its new business for the month of January was \$86,524 71, insuring the amount of \$1,649,000.
One mouth's business being greater than that done by the largest and wealthiest Life Insurance Compa-

nies in the United States during the entire first year of their existence.

The Association was first started by the most wealthy and influential citizens of St. Louis, for the purpose of changing the current of Life Insurance and Life Insurance capital from the East to the West and South, and as its plan is liberal and just to every section, State and district, the wealthy men of the West and Sou h generally are insuring their lives in it, to the exclusion of other companies This is shown by the fact that the policies issued during the months of December and January are of an averange amount of \$7,368 42, drawing an averange age annual premium of \$418 20.

The largest average attained by any other company in the United States is about \$40.0 to each policy, while the average size of all policies existing in this country is only about \$2500. These facts speak for themselves,
